

# ALLIANCE FOR SPACE DEVELOPMENT

**Space Development Steering Committee**

**SPACE TOURISM SOCIETY**

## Goals:

- Make the development and settlement of space a clearly defined part of why we are sending humans into space.
- Reduce the cost of access to space.
- Stimulate and accelerate the growth of space industries.

## Alliance Objectives for 2015:

- Incorporate of space development and settlement into the NASA Space Act
- Implement four immediate actions to reduce the cost of access to space:
  - Initiate national Grand Challenge for Low-Cost Access to Space
  - Extend the learning period for commercial suborbital RLVs
  - Change commercial suborbital RLV regulations to permit experimental testing during commercial operations
  - Establish Low-Cost Access to Space Prize
- Full funding of the Commercial Crew program as requested by the White House
- Increase the utilization of the International Space Station (ISS) while partnering with NASA to ensure a gapless transition to private space stations
